REMARKS

Thorough examination and careful review of the application by the Examiner is noted and appreciated.

The gracious allowance of claims 1, 3, 6, 7, 10-12 and 20 is further acknowledged and appreciated.

The indication by the Examiner that the non-elected claims 13-19 will be rejoined and fully examined for patentability under 37 CFR 1.104 if they are amended to be commensurated in scope with the allowed product claims, is further acknowledge and appreciated by the Applicant.

Rejections under 35 USC 112

Claims 2, 4-5 and 8-9 are rejected under 35 USC 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention. The Examiner combined use of the claim language of "at least" and "substantially" is objected to by the Examiner.

Claims 1, 2, 4, 6 and 8 have been amended to alleviate the Examiner's rejections. The Applicants did not discover any needs for amendment for claims 5 and 9. However, if such is not agreeable with the Examiner, the Applicant is more than willing to consider any necessary amendments. A reconsideration for allowance of claims 2, 4-5 and 8-9 under 35 USC 112, second paragraph, is respectfully requested of the Examiner.

Independent method claim 13 has been amended to be commensurate in scope with allowed product claim 1. A rejoining and consideration for allowance of claim 13, and it dependent claims 14-19, is respectfully requested of the Examiner.

Page 7

Based on the foregoing, the Applicant respectfully submits that all of the pending claims, i.e. claims 2, 4-5 and 8-9, and the rejoined method claims 13-19, are now in condition for allowance. Such favorable action by the Examiner at an early date is respectfully solicited.

In the event that the present invention is not in a condition for allowance for any other reasons, the Examiner is respectfully invited to call the Applicant's representative at his office at (248) 540-4040 such that necessary action may be taken to place the application in a condition for allowance.

Respectfully Submitted,

Randy Tung (31,311)
